

NATUROIL 1499 Accelerator

NATUROIL 1499 Accelerator is a LEAD FREE, resin based drier.

Advantages

- Formulated to speed up drying time of 3100 and 3115
- Minimise risk of frying of the next coating
- Environmentally Friendly LEAD FREE

Typical Applications

NATUROIL 1499 may be added to NATUROIL 3100 Gloss and 3115 Low Gloss to reduce drying times.

Product Approvals

NATUROIL 1499 has been evaluated for AS/NZS 4586:2004: Slip resistance classification of new pedestrian surface materials by Advanced Technology Testing & Research (ATTAR). The coating system passed the requirements of the “Dry Slip Resistance” and was classified as Dry = F. Certificates available on request.

Coverage

Coverage is dependent upon the porosity of the substrate.

Application Method

To be added to speed up drying times of 3100 and 3115.

Thinning

Not required.

NATUROIL 1499

Accelerator.

	Clean Up	Clean all equipment using Mineral Turpentine. Ensure all cleaning products are removed before placing equipment back in the coating.
	Shelf Life	12 months, see label for use by date. Do not use product past use by date.

Product Information Guide for more information

Health & Safety

Before handling, refer to the Safety Data Sheet for health and safety information. Ensure that all personnel using this product have read and understood this data sheet and the associated SDS and packaging label before using this product.

Note: Coatings give off strong solvents and odours during the drying process. People and pets should be removed from the building during the application and drying of coatings. All food and fabrics should also be removed to reduce the risk of them becoming tainted during the drying process.
